### A solution providers view – Contrary to popular belief there are a range of solutions for all budgets...

“ With the surge in technological advancement, and resource-sharing facilities, there are now a range of cost options available to businesses looking to improve upon their business practices... An ideal market place is created for supply to meet demand with the introduction of IoT Asia. ”

Mr Tan S.M  
Business Development Director  
TCAM Technology Pte Ltd

### IoT Asia 2014

The first Asian IoT / M2M event dedicated to showcasing IoT and M2M turnkey solutions and technologies to a potential population of 3,500\* end businesses across 7 high growth verticals, and 1,500\* system integrators and app developers across Asia.

### Latest News & Announcements

21 January 2014  
**Internet of Things Asia 2014 welcomes Bosch Software Innovations GmbH Onboard as a Silver Sponsor**  
Bosch Software Innovations GmbH, the Bosch Group's software and systems house, designs, develops, and operates innovative software and system solutions that help our customers around the world both in the traditional enterprise environment and in the Internet of Things and Services (IoTS). We place particular focus in this field on the topics of mobility, energy and building, manufacturing, and financial services. Whether in its special, targeted BPM+ and IoTS editions or as flexible standalone products, our software suite is the perfect foundation not only for projects relating to the Internet of Things and Services but also for projects in the fields of Business Process Management (BPM) and Business Rules Management (BRM).

### What is IoT?
