## Platform for M2M/IOT Communications

TMN-52 Data Logger  
Flood Monitoring

T61 (2G/3G)  
Smart Gateway  
AMR

TMN-1000/TMN-5000  
SCADAS

### The Company

TCAM Technology Pte Ltd (Singapore) is a “State of the Art” technology company, incorporated in 2001. Our core competencies are in wireless telemetry products related to SMS/GSM/GPRS/3G, for applications in M2M (Machine to Machine) , IoT (Internet of Things), Smart Metering, SCADA (Supervisory Control And Data Acquisition) and EMS (Elderly Management System). For the past 14 years, we have developed many products and technology platforms for our valued partners. Our TMAS brand name, technologies, products, system solutions etc have landed in many countries from Asia, Europe, Africa, Middle East and Australia.

Being the founding member of IoT Asia (Internet of Things) we continue to invest heavily in R&D, focusing in M2M and IoT technologies. A consistent dedication to the development of continual improvement of technologies in ways that entails with the needs of customers, is and always the source of our strength. Guided by this vision, we have always striven to ensure that our technological diversification is quickly reflected in solutions that allow customers to add value to their own products. In addition, we are able to advice and provide total integrated solutions to solve customer’s problem, improve in their work flow effectively and efficiently.
