TMAS is a registered trademark of TCAM Technology Pte Ltd

About the company

TCAM Technology Pte Ltd is a M2M/IOT technology provider for the past 15 years. Under our brand "TMAS", we offer wide range of wireless telemetry products, ranging from system solutions to cloud platform. For many years, TMAS products have landed in many countries, with applications related to care at home, water & energy metering, wireless data telemetry etc.. As a founding partner of IoT Asia since 2014, we continue to invest heavily in IoT, smart wireless sensor network and smart analytic solutions. We are migrating towards an open platform, inter-operability, secured data, data portability in compliance with various Singapore Smart Nation standards.
